

REPORT FROM 2ND ICBER 2011

Name of country: Malaysia

Time: 2011.3.13~2011.3.19

Name of Conference:

2ND INTERNATIONAL CONFERENCE FOR BUSINESS AND ECONOMIC RESEARCH 2011,
Holiday Villa Beach Resort and Spa, Langkawi Kedah.

I attended the 2nd International Conference for Business and Economic Research in Langkawi under the travel grant funded by JSPS. The conference is an unforgettable experience for me to meet people from other countries to discuss my academic interest and to visit beautiful landscape in Langkawi Island.

During the conference, I meet many professors and students come from other countries who present their researches and I can discuss with them about many things that I am interested to. In additions, I got some comments and questions that are helpful to me to revise my research paper.

I was fully happy with the way of conference organizing and the trip that they provided to the presenters to visit the island after the conference. This made me feels relaxing so much to escape from academic world. This also helped me to recreate my ability to continue my studies afterward.

After the conference, my research paper was invited to submit to the Journal named "China-USABusiness Review" in the United States. This is out of my expectation. I hope that I can publish my paper in this journal because it is absolutely match with the theme of my research. This is very helpful to contribute to the fulfillments of my graduation conditions as two peer-reviewed published in academic journals.

By this occasion, I would like to express my deepest thanks to my supervisor, Prof. Mitsuyasu Yabe who has make a lot of supports to me not only for this grant from JSPS but also for others as well. Finally, I am so grateful to JSPS program for providing me this travel grant. Thank you very much.
