

Module Code	19349042	Course Term
Course Subject Name	<b>Lab Rotation 1</b>	Autumn Semester
Course Tutor	<b>Hyunjung BANG</b>	
Credit	2	
Schools	School of Agriculture	Taught Day
Taught Year	The 3rd year	<b>WED-4</b>
Campus	Ito campus	
Subject Area	Laboratory Subject	
Course Subject Classification		
Course Requirements		
Course Requirement (Pre-requisite)	none	Wednesday, 4th period (14:50-16:20)

### Course Outline

Students visit at least three laboratories on the one month rotation basis as a prerequisite to choose their future laboratory

### key words

Lab visits, Three laboratories, One month rotation, Selection of the best laboratory

### Study Objectives (General)

The goal of this course is to provide students with opportunities to get to know better three laboratories of their choice in the School of Agriculture on the one month rotation basis and, based on the experiences and comparison, choose the best laboratory as their future platform for their bachelor thesis study.

### Study Objectives (Specific)

The course aims to achieve the following:

- A. Students get to know better the atmosphere, research content and approaches of the three laboratories of their choice
- B. Students learn something on the issues or problems assigned by the laboratory supervisor during the one month lab visit
- C. Students choose the best laboratory as their future platform for their bachelor thesis study

### Course Plan

Monthly Schedule:

October: Visit the first laboratory and fulfill the requirements set by the laboratory supervisor

November: Visit the second laboratory and fulfill the requirements set by the laboratory supervisor

December: Visit the third laboratory and fulfill the requirements set by the laboratory supervisor
